

**SMALL ENOUGH
TO CARE ...**

**... AND BIG ENOUGH
TO DELIVER**

OUR TESTING SERVICES:

- Analytical Chemistry
- Physico-chemical Properties
- In vitro / in vivo Toxicology
- Aquatic and Terrestrial Ecotoxicology
- Environmental Fate
- Mutagenicity / Genotoxicity
- Endocrine Properties

LAUS is your trusted partner for testing of **Medicinal Products for Human Use** following the principles of Good Laboratory Practice (GLP).

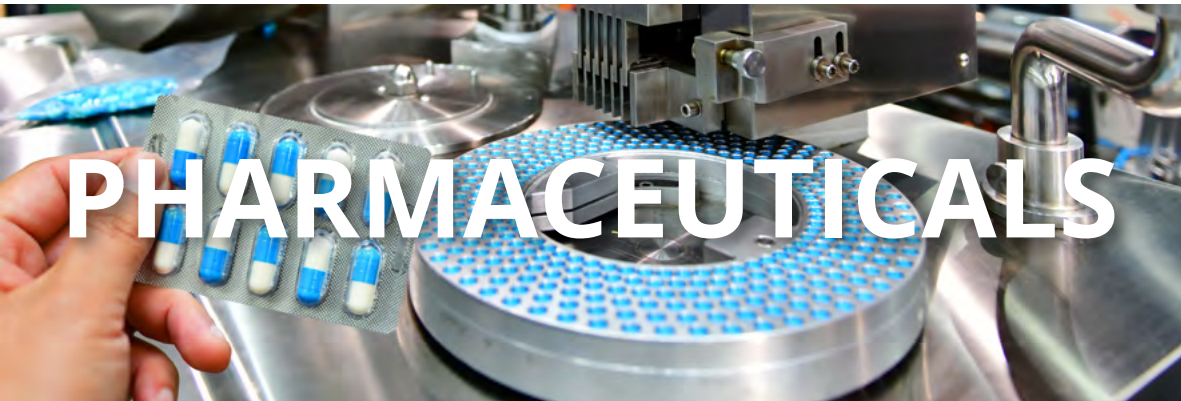

Environmental Risk Assessment ERA (acc. EMEA/CHMP/ SWP/4447/00 Rev. 1), Phase II: We determine physico-chemical parameters and offer fate properties, aquatic toxicity, functioning of STP, and sediment toxicity studies.

LAUS - The GLP Lab - offers testing according to the principles of Good Laboratory Practice for more than 20 years. But we do more than test your products.

With 30 years of experience in regulatory compliance testing our experts offer their advice regarding the experimental approach and optimized test strategy, customized for your test item. Since we are a small privately owned company, we are able to treat every customer individually.

Determination of **genotoxic API impurities according ICH M7**: We provide the Ames/Ames MPF test (for very low quantities) and the Mammalian Chromosome Aberration Test on Human Lymphocytes.

PHARMACEUTICALS

Genotoxicity Testing, Preclinical Phase:

- Ames / Ames MPF
- Micronucleus Test
- Chromosome Aberration
- Mouse Lymphoma Assay
- HPRT
